Why do Dental Super Centers work so well? Dental Super Centers are equipped with all the specialists, **Endodontist, Periodontist, Orthodontist, Pediatric Dentist, Prosthodontist or Implantologist and General Dentists**. When a general dentist or specialist comes to work at an American Dental Super Center, they think about teeth and only teeth. They have the luxury of only being concerned about what is going on in your mouth. They don't have to worry about the front office staff, payroll, overhead, machine maintenance, health insurance for employees, business tax on income, workers compensation, or utility costs. They come to work and have a built in schedule of patients already waiting for them. They don't have to worry about reordering supplies, maintenance on x-ray machines, dental lab costs. General dentists and specialists are only concerned about treating their patients with 100% concentration. You can't find that anywhere else except at the **American Dental Super Centers**.
